

# Mobile Wallet

With a quick tap of your smartphone or smartwatch, you can use your Choice Bank debit card to pay with Mobile Wallet at millions of store locations. Mobile Wallet is a digital wallet that simplifies the checkout process in-store, in apps, and online securely on your smartphone, tablet, or desktop computer. You get all the benefits of a Choice Bank debit card with the added protection of Mastercard Zero Liability.

## Convenient

You don't need to carry your card or cash with you. You have your smartphone with you all the time, now your mobile wallet is too.

## Save Time

Mobile wallet offers a quicker way to complete purchases so you can spend less time waiting at the register.

## Contactless Payment

There is no need to touch a keypad or handle cash, just hold your smartphone near the payment terminal to make a payment.

## Added Security

Your card information is always kept safe and private. Every Mobile Wallet transaction utilizes a unique one-time code, so your payment information isn't stored on your device or shared when you pay.

## How to Activate and Pay with Mobile Wallet

With Choice Bank, you can use any of the trusted mobile wallets below. Visit their website for directions on how to add debit cards to your device and use them.
